

New Faculty Bio

Name: Mina Samizadeh

Position: Assistant Professor

Department of: Computer Science

Bio:

I earned my PhD in Computer Science from University of Delaware. My research focuses on adopting data-driven approaches to enhance decision-making and reasoning processes. I strive to leverage computational methods to improve problem-solving across various domains, with a particular emphasis on integrating socially responsible practices.

Educational Background:

Ph.D. in Computer Science University of Delaware Advisor: Dr. Guangmo Tong
M.Sc. in Computer Engineering Specialization: Artificial Intelligence and Robotics Iran University of Science and Technology
B.Sc. in Computer Engineering Specialization: Software Engineering Iran University of Science and Technology

Classes Taught:

Lead TA of Artificial intelligence (3 semesters), Artificial Intelligence (3 semesters), Algorithm Design and Analysis (3 semesters), Data Structure (hold lab sessions), Advanced Software Engineering, Cloud Computing, Game Development, Web Development, Compiler Design, Natural Language Processing, Advanced Data Mining

Research Interest:

Machine Learning, Artificial Intelligence, Combinatorial Optimization, Responsible AI
